Thorough CIA Shakeup Is Demanded By Pelly

Congressman Thomas M. Pelly last night called for a thorough shakeup in the Central Intelligence Agency, including Allan Dulles and the entire top echelon, not just one or two persons.

In a statement from Washington, D. C., Pelly amplified a comment cut short by time in a panel discussion filmed earlier for showing at 2 p.m. today on KIRO-TV.

PELLY ASSERTED:
"The Kennedy administra-

tion apparently has been getting consistently bad advice, on Laos as well as Cuba. Here again the past week, in the South Korean situation, we are caught backing the wrong horse.

"Cuba spotlighted the situation. Even information available to me indicated the general populace of Cuba was not disposed to rise against Castro."

Pelly emphasized his view that CIA changes should not be considered as political.
